

# GLADTECH 2025

## July 16th & 17th

Gladwin's Minnesota's office will again be hosting a customer event, live-demos the latest in fabrication equipment from the worlds leading manufacturers - including several automation applications and multiple demos!

**9:00am - 4:00pm each day**

### ACCURPRESS

Great range of hydraulic press brakes with impressive features & options.

**LIVE DEMOS**

Accell E 250 Ton 9-Axis

GAD Automated Forming Cell

- 55 Ton Safan E-Brake with integrated Fanuc robot
  - Robotic bending solution for any size project.
- "Custom is Standard"

## KOHLER

Precisely level and relieve stress from sheets and part blanks. Your downstream production processes will benefit from higher quality flat parts reducing forming, fixturing and welding times dramatically. All while providing better finished parts!

Register for the show!

Gladwin Machinery  
5170 Main Street NE, Fridley MN

## BBQ lunch each day!

Always Solving!

DAIHEN Inc.

- (3) Robotic cells under power and running parts
- OTC The Global Leader in Robotic Arc Welding
- Entire welding solution is OTC! Welder, robot, material handling...ALL OTC

ECO-ARC 290

Accelerate your welding processes by creating jigs and fixtures faster.

**LIVE DEMOS**

The ULT Airtower for welding fume extraction with NO DUCTWORK

**A.C.T.**  
DUST COLLECTORS

High-performance industrial dust collectors come in many makes and models and are built with features to stand up to your rugged manufacturing environment.

**GLADWIN**  
Machinery Solutions, LLC

**GLADTECH 2025**  
July 16th & 17th

# Mazak

## OPTONICS CORP.

- The next generation of high power fiber lasers with maximum control.

15KW Neo Fiber Laser

LIVE DEMOS

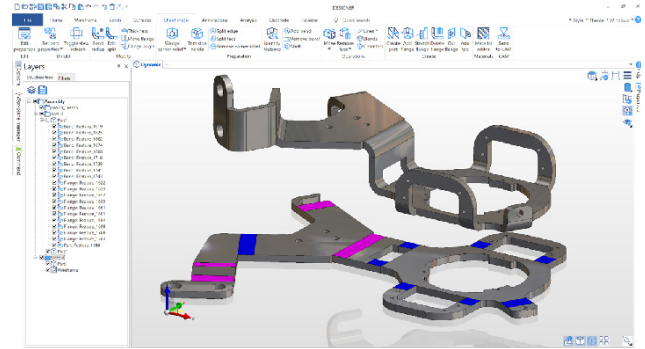

Liberty nitrogen generators, mixers and high performance air systems.

RADAN BY HEXAGON

Vertically integrated software.

130-3100 Ultra

The E-evolution in sheet metal working

- Multiple Safan electric press brakes
- Safan R-Brake

**WILA**  
SINCE 1932  
THE PRESS BRAKE PRODUCTIVITY PEOPLE  
Precision tooling and clamping systems

**GLADWIN**  
Machinery Solutions, LLC

GLADTECH 2025  
July 16th & 17th

- The most complete line of vertical saws in the industry.
- Full line of horizontal saws from both Marvel and Amada.

8-Mark-III

380 Automatic Saw

LIVE DEMOS

Blaze Mobile

Blaze Duo

OB7 Collaborative Robots from Productive Robotics are the simplest and most flexible cobots for automating thousands of industrial production tasks across all industries.

32 WRB Series

- 32 Series rotary brush machine offers deburring, edge rounding, oxide removal and slag removal on one machine.

**FLEX**  
MACHINE TOOLS

- Discover the E.P.I.C. advantage – Best in Class.
- Long bed vertical machining centers.
- 10' - 50' long, up to 10' wide.

FlexCNC

**GLADTECH 2025**  
July 16th & 17th

# DAVI

First completely electric plate roll series in the world.

SEE FOR THE FIRST TIME IN MISSOURI

CNC Electric Plate Roll

## SCHRÖDER GROUP

- Bi-Direction up/down bending makes forming easier.
- Automated systems with automatic tool changing and part handling.

PowerBend Professional  
CNC Bi-Directional Folding

LIVE DEMOS

## TECOI

Advanced Plate Processing Systems

TECOI's THOR is the most versatile plate processing station on the market, allowing the production of parts with multiple operations such as milling, drilling, tapping, countersinking, marking, etc.

THOR

**GLADWIN**  
Machinery Solutions, LLC

GLADTECH 2025  
July 16th & 17th

# LEMAS®

- Reliable Economical 3 and 4-Roll Hydraulic Plate Rolls.
- Standard productivity enhancing features.

LEMAS TR Series

**LIVE DEMOS**

Aluminum Saw

- Full range Manual and Semi-Automatic Miter Band-saws
- High Speed Aluminum Saws and Machining Centers

Register  
for the show!

Manufacturers Capital will be onsite to answer all your questions regarding equipment financing.

Messer Cutting Systems is a global supplier of cutting solutions for the metal-working industry. As the leader in the thermal cutting industry, we are working on smarter, faster, and reliable solutions as an added value for our customers.
